Background and Experience

Please briefly present your organisation/the group

Our school – Zespół Szkół Elektrycznych no 1 is a large (educating about 1,100 students) secondary technical school, very conveniently located in the suburbs of one of the most beautiful cities in Poland – Krakow and can boast a 75-year long tradition.

We educate specialists in the field of:

- electronics technician
- automation technician
- electrical technician
- renewable energy technician
- IT technician and programmer

The school puts emphasis on a high level of education and comprehensive development of the student. It tries to respond to the changing needs of the labor market.

A measurable confirmation of the quality of education at ZSE is the annual, almost 100% pass rate of the matura (equivalent of A-levels) exam. Such high results classify our school among the top technical schools in Krakow.

In the nationwide ranking of secondary schools our Electrical and Electronic Technical School ranks among the best vocational schools in the country. The school has been awarded many times with "silver" and "bronze" badges for the high quality of education.

Our students have at disposal well equipped vocational labs, modern complex of sport fields including a football pitch and multifunctional courts, a full-size indoor gymnasium, a table tennis room, a gym, a dormitory with a canteen, a school hall, a computerized library with a reading room, wireless and free internet access at school and dormitory, 24/7 monitoring of the school, a parking lot, green areas (approx. 4 ha).

Our students actively participate in the Małopolska Educational Cloud and in videoconferences and lectures with the participation of technical universities in Krakow, take part in numerous projects carried out within Erasmus+ scheme.

The school cooperates with Krakow's technical universities and prestigious companies as partners, incl. Astor, Cisco, Sunigor, Finder, Elita, EI12, Satel and Huawei.

What are the activities and experience of the organisation in youth work?

Please provide information on your organisation's / group's regular youth work activities.

ERASMUS+ AND OTHER PROGRAMMES EXPERIENCE

VET SECTOR – organising 4-week long foreign internships for our students,

The assumption of carried out projects was that in addition to professional competences, participants should develop key competences, i.e. they know foreign languages, are open and tolerant, can work in a team, are mobile, use modern technologies efficiently and wisely, have a need for learning and selfdevelopment and are aware of the shared European identity. These competences are extremely important in modern labour market, which is reflected in the analyzes of graduates' career paths. Through the implementation of this project, the school is also to support intercultural understanding and thus counter radicalisation, unfortunately observed among young people, also in our school, by showing common European values.

These projects were also expected to affect the inclusion of people from disadvantaged backgrounds into active professional and social life.

Project accomplished in that sector:

- 2021 Erasmus+ first accredited project no 2021-1-PL01-KA121-VET-000010637, location: Braga/ Portugal
- 2018 Erasmus+ project *Nothing about us without us - apprenticeships as a response to the needs of students and the labor market* – location: Malaga/ Spain, Schkeuditz/ Germany
- 2017 Erasmus+ project *Still a student and already a competent employee on the market European* – location: Bournemouth/ UK
- 2016 Erasmus+ project *Professional crossroads - corporation and small business, how to expand the range of professional opportunities* – location: Southampton/ UK
- 2013 Leonardo program *Master_ Informatyki.de - internship project for young IT specialists in Germany* – location: Schkeuditz/ Germany

SCHOOL EDUCATION SECTOR – TRAINING AND COURSES FOR TEACHING STAFF

We want our school to be a modern platform where highly-qualified but also tolerant and open-minded teachers meet students and can offer them their best. Therefore, we are interested in staff who: increase their professional competence, are aware of the need to learn, have adequate knowledge of current practices and education systems, have high language competence, understand the need for diversity in accordance with the slogan Diversity is key (working in a multicultural class), demonstrates the ability to meet the needs of disadvantaged students, organizes and provide care during overseas internships for young people and are able to establish and implement foreign cooperation to promote European values.

Accomplished projects in that sector (various European countries/ various courses):

- 2021 Erasmus+ first accredited project no 2021-1-PL01-KA121-SCH-000010629 – 9 teachers participated
- 2018 Erasmus+ *Foreign languages - the key to teacher and student success* - 15 teachers took part
- 2016 Erasmus+ *Broad horizons - more opportunities* – 19 teachers participated
- 2012 Comenius program participation in a methodology course The use of social media in education – 2 teachers participated

POWER PROGRAMME –

- 2019 *Is there a common code for young Europeans?* - 14 students visited a school in Hazebrouck/ France to seek common roots and tradition
